

## THE PRESENTERS...

**Shae Thompson:** Math Instructor - Advance By Choice - Montana State University - Bozeman

Shae has taught developmental mathematics courses at MSU since 1999. Previously, she taught math at Bridger Alternative Program and started the **Math Lab** at Bozeman High School. In her classes, she presents a combination of lecture and individual instruction.

Shae will present on current authors and information available on techniques for learning math. She will share ideas on how to help students recognize and reduce math anxiety, discover their math learning strengths and weaknesses, improve math study techniques, learn skills for taking math tests, and improve their math test scores. This presentation will provide insight on how to motivate, support, and lead students into a successful math experience.
