

# Integration Next Steps

PEP Talk workshops have been completed and feedback was very positive. Now that you have the tools what next?

Our thanks to everyone who attended and who has continued to give us feedback on PEP Talk. From this feedback the PEP Talk design team has determined that we need to provide organization specific and community level technical assistance over the next 6 months.

We are sending out this announcement to let you know that we are making arrangements to have a facilitator work with your organization and your community to help you tailor PEP Talk and the integration of PEP Talk into **YOUR** specific processes.

We believe that shortly after the first of the year we will have that individual hired and trained on PEP Talk. Once that happens they will work with you to help your organization integrate PEP Talk in a way that works for you, your customers and your community. We will send out more information as soon as it is available.

Keep your suggestions and experiences coming! Together we will be able to provide our customers with the tools and services they need to advance to satisfying careers!
