

Summary of April 1 Conference Call

Purpose: To share what may be happening in your community regarding adult education needs and stimulus dollars-local dollars

Focus of Discussion: Working with partner agencies with specific education needs tied to stimulus dollars (not individuals).

Expectation: You do not need to do anything differently; your ABE work is the most important.

Grant Compliance: Do not compromise your grant; adhere to grant compliance and ABE policy when you enroll ABE students. (It's the law.)

Services beyond ABE: If you provide services beyond your ABE grant, make sure you keep your fiscal records very clean. (Do not use your ABE funds for any purposes other than what is allowable.)

Guidance: Visit with your fiscal clerk if you have questions regarding your ABE grant and how you might handle services beyond your ABE grant if you are approached.

Caution: Do not enter into any agreements in haste; working too fast could lead to costly mistakes (perhaps-pay back in later years).
